

**Introducing Consent2Go, a
paperless way of managing
excursions.**

Dear Parents/Carers,

We are upgrading how we Manage Excursions!

The new system, called Consent2Go (C2G) will (from Term 3), change how we manage excursions.

The new system will:

- Enable **excursion notifications via email** (and in emergency situations SMS);
- Allow you to **grant permission** within an email interface;
- **Inform you via email** about excursion information and updates;
- Facilitate via email the communication of **up-to-date** personal and medical information about your child;
- **Allow** teaching staff to track excursion permission electronically;
- In the future, we also hope to enable (where necessary) excursion payment via the email interface.

C2G will replace the need for paper permission and information notes. It will also allow you to easily update information related to your child.

**The first step in enabling C2G is to ensure that important
information is up-to-date.**

Shortly, you will receive an email that will ask you to check and adjust any information that needs to be updated.

Please note you will be asked to re-enter some information that you have already provided to the school, this particularly relates to the details of medical conditions.

If your child has a medical condition/s we understand that this may take some extra time. We appreciate your assistance in this regard as this process will ensure that we have the most up-to-date information.

Please check your inbox and Spam or Junk email boxes.
